NEWS OF THE WATERFRONT.

TRANSPORT MAY SAIL TOMORROW

One Boiler Is Burned Out—Many Reports of Transfers Made.

The officers of the Warren said yesterday that the transport would leave for Manila tomorrow. The boiler-makers promise to have the repairs complete by that time. Rumors were plentiful along the waterfront that the 800 troops of the Warren would be transferred to the Meade, now due here. Some of the reports went so far as to say that the transport would be condemned here. This is emphatically denied by Quartermaster Williamson, who says the ship is as safe as any transport coming here.

It has leaked out that Chief Engineer Phillips resigned because he was not consulted in regard to the repairs made to the Warren's crew. The trouble with the transport's boilers is that the water in one of them was allowed to run down one day last week, the result being that the boiler was burned out.

While nothing definite can be ascertained, it is said that the board of inquiry met on Sunday and decided that the vessel should sail when ready, and that should any signs of trouble be apparent at the start she should be put back and her troops transferred to the Meade.

Chief Engineer Brown, of the Warren, was until Phillips' resignation, second assistant engineer of the transport.

Eureka for Anahola.

The steamship Eureka, Captain Weedon, sailed for Anahola about 6:30 p. m. yesterday. She took fifteen or sixteen laborers with her to assist in loading sugar of the Makee Sugar Company. The experiment of taking such a large vessel as the Eureka to Anahola will be watched with much interest, as this will be the first time that such a big vessel has gone into Anahola harbor. The Eureka will take a partial load of sugar at Anahola, returning to Honolulu to complete her cargo.

The schooner Metha Nelson, Captain Christiansen, has left Mahukona for Port Townsend, in ballast.

WITH FORWARD GEAR BLOWN AWAY

Bark Albert Arrives From Coast After Stormy Passage of 23 Days.

The bark Albert, Captain Griffiths, arrived early yesterday morning, after a trip of 23 days from the coast, having left San Francisco on February 15. She experienced the same weather as all recent arrivals, having had to buck southeasterly gales for the first two weeks out of port, and then falling in with the trades.

The bark arrived off port on Saturday night, but blew away to leeward, and came up again Sunday night, too late to catch the doctor. She brought a cargo of general merchandise, which she is discharging at the Irmgard wharf.

Captain Griffiths says the wind was higher this trip than ever before in his experience. The Albert's flying jibstay, inner jibstay, martingale and other forward gear, is gone. For three days the bark worried along under lower topsails.

There was a solitary passenger on the Albert, a lawyer named Wilson.

SHIPPING NOTES.

The steamer Kauai may sail today for Kauai ports.

The transport Egbert, from Manila for Honolulu, is now twenty days out.

The transport Meade with later news and mail is now ten days out from San Francisco.

Mrs. Henrietta K. Kibling, wife of Purser Kibling of the Kinai died yesterday morning.

The steamer Hyades, which sailed last night for Kahului, loaded 26,000 bags of sugar in thirteen hours.

A survey was held yesterday afternoon on the damaged cargo of the schooner Alice Kimball. Several hundred bags of rice were damaged by the salt water.

The schooner Alice Kimball had a terrible passage from Koloa, and the figurehead was carried away by the waves. Captain Elisen says that he has never seen the sea any rougher round the Horn. The Kimball narrowly escaped going ashore on the southwest end of this island.

The Myrtle House.

The Myrtle bathhouse will soon be in shape for occupancy. The finishing touches are being put to the work of

the carpenters. In a day or so the painters will get to work, and it is anticipated that a couple of weeks will see the Myrtle headquarters ready for the members once again. In the new house the dancing lanai upstairs is reached from a platform outside the house connected with the lanai by a stairway. The janitor will reside in quarters adjoining the seawall.

They Must Go.

The owners of yachts which have been moored for so long a time off the Healan boathouse, must seek new anchorage. Tomorrow morning the dredger will be taken from the Quarantine wharf and will begin work right where the yachts are moored today.

A STUBBORN COLD OR BRONCHITIS yields more readily to Scott's Emulsion of cod-liver oil than to anything that you can take; and if persistently used a few days, will break up the cold.

When you awake in the night choked up and coughing hard, take a dose of the Emulsion, and you will get immediate relief, where no cough medicine will give you relief. It has a soothing and healing effect upon the throat and bronchial tubes.

Most people understand Scott's Emulsion is a great body builder—but it is equally good to allay inflammation and cure colds and violent coughing.
